

BENEFITS

The latest addition to the TECO Air Conditioning product range is the Inverter portable air conditioners. Engineered to run more efficiently than its fixed speed predecessors while delivering more power in the same compact and portable unit. Packed with features that ensure you'll be comfortable no matter where you are. TECO inverter portable air conditioners, The Comfortable Choice.

Dual DC Inverter Technology

Both DC inverter compressor and fan motor are adopted for higher cooling efficiency and lower power consumption. This assists in reducing running costs, offering more consistent temperature control without compromising on comfort. The graph below shows how the inverter technology help reduce running costs.*

Sleep Mode

Enjoy a comfortable and quiet sleep with sleep mode. The temperature will be automatically adjusted over time and the fan will be set to low to reduce operating noise.

Built-in Wi-Fi

The built-in Wi-Fi enables you to control the air conditioner from anywhere using your mobile phone or tablet. Download our App (see below) for your smart device and control your air conditioner remotely either in or out of home.

Tuya Smart App

Use the Tuya Smart app to extend the functionality of the portable air conditioner. The app enables a connection to a mobile device and the air conditioner. Download by scanning the QR code below. Compatible with Google Home & Amazon Alexa.

Wireless Remote

Along with a stylish touch control, this range comes complete with a wireless remote control.

Silver Ion Filter

Comes with an active silver ion filter that purifies the air by releasing Silver ions to sterilize bacteria.
