TECO

together, we empower the Future

INVERTER TECHNOLOGY, FIRST TO MARKET

ECO-FRIENDLY COOLING AND HEATING FOR YOUR COMFORT, WITH INVERTER TECHNOLOGY MEETING THE AUSTRALIAN MEPS REQUIREMENTS.

WHY CHOOSE TECO INVERTER TECHNOLOGY?

- **Save on Energy Costs:** Inverter technology reduces power consumption compared to traditional fixed-speed units.
- **Comfortable Cooling & Heating:** Eliminates temperature fluctuations, maintaining the desired temperature for consistent comfort in any climate.
- **Quieter Operation:** Operates with less noise than traditional fixed-speed units, creating a more stable and peaceful environment.
- **Sustainable:** Our units meet Australia's energy efficiency standards (MEPS) and offers an improved star rating compared to fixed-speed units.

Smarter cooling, lower costs, and a commitment to sustainability.

Contact us today to secure your units and deliver the best to your customers.

WINDOW WALL AIR CONDITIONING

Perfect for small to medium spaces

2.8KW INVERTER WINDOW/WALL AIR CONDITIONER

- Cooling Capacity: 2.8kW
- Heating Capacity: 2.43kW

Designed for medium spaces

3.6KW INVERTER WINDOW/WALL AIR CONDITIONER

- Cooling Capacity: 3.6kW
- Heating Capacity: 3.5kW

Engineered for large spaces

5.3KW INVERTER WINDOW/WALL AIR CONDITIONER

- Cooling Capacity: 5.3kW
- Heating Capacity: 4.8kW

KEY FEATURES & BENEFITS

- **Installer-Friendly Design:** Quick installation with minimal hassle, saving you time and effort.
- **Reliable Performance:** Cutting-edge inverter technology ensures efficient cooling and heating all year round.
- **Eco-Friendly Refrigerant:** Utilises R32 refrigerant for reduced environmental impact.
- **Gold Fin Protection:** Advanced corrosion resistance for long-lasting durability.
- **Smart Controls:** Intuitive electronic controls with remote functionality for effortless operation.
- **Enhanced Air Quality:** High-density and silver ion filters improve indoor air cleanliness.
